B.Sc. Computer Science and
Statistics
University of Nigeria, Nsukka
Graduated July 2026

TRAINING

Web Development Bootcamp
Alabians Solution, Ikeja, Lagos
2024 · HTML, CSS, JavaScript, React

PROFILE

Recent Computer Science and Statistics graduate with hands-on experience building full-stack and front-end web applications using the MERN stack and React. Comfortable working across the stack, from crafting responsive interfaces to building and deploying functional applications. Eager to bring strong problem-solving skills and a fast learning curve to a web development team.

PROJECTS

Daily Expense Tracker

MERN STACK (MONGODB, EXPRESS, REACT, NODE.JS)

A full-stack web application that allows users to log, categorize, and monitor their day-to-day expenses in real time, helping them stay on top of their personal finances.

- Built a RESTful API with Express and Node.js to handle expense records
- Designed a responsive React front end for adding, editing, and viewing expenses
- Used MongoDB for persistent data storage

github.com/Kinggappo/expense-tracker

Personal Portfolio

REACT

A sleek, responsive portfolio built with React to showcase projects, skills, and experience — designed to make a strong first impression at a glance.

github.com/Kinggappo/portfolio

ADDITIONAL INFORMATION

- Actively building and deploying personal projects to strengthen full-stack development skills
- Comfortable with version control workflows using Git and GitHub
- Deploys and hosts projects using Vercel
